

Ashley Clint Brizuela Antonio

ashleyclintantonio@gmail.com | linkedin.com/in/ashleyclintantonio | Tangos, Baliwag, Bulacan

Full-Stack Developer experienced in creating and improving web applications through both frontend and backend development. Proficient in PHP, JavaScript, MySQL, HTML, and CSS, with hands-on experience in responsive design, efficient database architecture, and system functionality. Dedicated to building efficient, user-friendly, and scalable solutions with clean and maintainable code.

Experience

Full-Stack Developer Intern Dec 2025 – Mar 2026

Magellan Solutions | Web Development Team | Log Sheet System

- Maintained the Log Sheet System for visitors and employees, ensuring accurate entry and location records.
- Developed backend features with the team to enhance system performance, reliability, and data accuracy.
- Assisted in testing, debugging, and validating system functionality to ensure seamless log sheet operations.

Project

Full-Stack Developer – Faculty Performance Monitoring System Feb 2025 – Nov 2025

Bulacan State University – Bustos Campus | PHP, JavaScript, HTML, CSS, MySQL | Capstone Project

- Project Lead for a faculty monitoring platform, overseeing backend logic and database architecture.
- Collaborated with faculty users to resolve document tracking challenges; system adopted university-wide.
- Delivered a fully functional platform now in active use across the university campus.

Full-Stack Developer – Kageyoshi: Coffee Shop Management System Oct 2024 – Dec 2024

Individual Project | Web Systems & Technologies | PHP, JavaScript, HTML, CSS, MySQL

- Built a full-featured POS web app with order management, inventory tracking, and automated PDF reporting.
- Implemented real-time UI customization allowing dynamic updates as customers modify drink preferences.
- Enhanced overall ordering experience by integrating interactive design with efficient backend functionality.

Full-Stack Developer – Cinema Management System Feb 2024 – Apr 2024

Pair Project | Object-Oriented Programming | Java, MySQL

- Developed a Cinema Management System for multi-branch scheduling, reservations, and daily operations.
- Built automated scheduling to prevent overlapping movie time slots and improve screening management.
- Implemented seat reservation, inventory tracking, sales reports, and multi-cinema administration features.

Trainings, Seminars & Certifications

Hackathon Participant Mar 2025

Bulacan State University – College of Information Technology IT Summit

- Applied programming and problem-solving skills in a competitive setting.

Reimagine Tomorrow: Decoding the Future of Technology Through AI Mar 2025

Bulacan State University – Seminar Attendee

- Explored how AI and machine learning are transforming software development and IT industries.

Introduction to Packet Tracer May 2024

Cisco Networking Academy – Certification

- Completed Cisco's hands-on networking course covering IP addressing, routing, and device configuration.
- Designed and simulated basic network topologies using Cisco Packet Tracer in a virtual lab environment.

InnoVision: IT Insights for Tomorrow May 2024

Bulacan State University – Seminar Attendee

- Participated in industry talks covering emerging technologies, digital transformation, and IT career trends.
- Expanded awareness of innovation-driven opportunities and the evolving landscape of the IT profession.

Education

Bulacan State University – Bustos Campus 2023 - Present

Bachelor of Science in Information Technology | Poblacion, Bustos, Bulacan

Baliwag Polytechnic College 2020 – 2022

Science, Technology, Engineering, and Mathematics (STEM) | Graduated With Highest Honors

Skills

Technical Skills: PHP, Laravel, JavaScript, NodeJS, Python, Django, Java, C++, MySQL, HTML, CSS, Bootstrap

Tools & Design: Adobe Photoshop, Premiere Pro, MS Office Suite, Web UI/UX Design, Cisco Packet Tracer

Competencies: Full-Stack Development, Database Management, Network Troubleshooting, Team Collaboration
